DIGITUS® Stripping tool for data cables

DN-94001-1

EAN 4016032498353

Stripping tool for network cables for multiconductor cable, up to AWG 24

The DIGITUS® multifunctional stripping tool is the simplest solution for quickly and easily stripping UTP and STP multi-core cables up to AWG 24. Features such as the adjustable screw for the opening size, an opening spring and a locking slide make this tool the perfect companion in any equipment.

The universal stripping tool ensures precise, fast and effortless stripping of the cable sheath

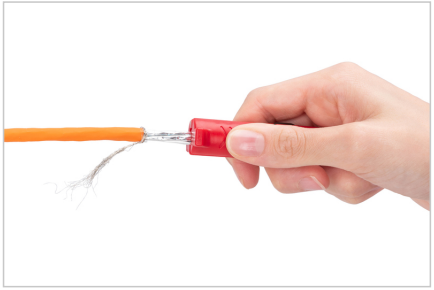

- Area of application: Stripping for UTP and STP data cables
- Side A for all installation cables and side B for coaxial cables
- General properties:
- AWG: Up to 24
- Cable diameter: 5-15 mm
- Quick and easy handling
- With opening spring and locking slide

Safety notes

- Avoid using network test devices in damp or wet environments, as this can lead to short circuits or electric shocks.
- Only use the device in the specified operating temperature ranges and avoid extreme humidity.
- Never connect the tester to unauthorized sources or excessively high voltages. Overloading can damage the device or lead to dangerous situations.
- Check the respective tools for obvious defects before each use.
- Remove damaged hand tools from use immediately and repair them professionally or replace them if necessary.
- Clean tools after use.
- Store safely and clearly.
